TEXAS DEPARTMENT OF LICENSING AND REGULATION (452) NOTES TO THE FINANCIAL STATEMENTS

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Entity

The Texas Department of Licensing and Regulation is an agency of the State of Texas and its financial records comply with state statutes and regulations. This includes compliance with the Texas Comptroller of Public Accounts' *Reporting Requirements for Annual Financial Reports of State Agencies and Universities*.

The Texas Department of Licensing and Regulation was created by the 71st Legislature in House Bill 863 and operates under the authority of Texas Occupations Code, Chapter 51. The mission of the Department is to maintain public trust by ensuring the public's safety and promoting a fair and competitive business environment for our regulated industries.

Due to the statewide requirements embedded in GASB Statement No. 34, *Basic Financial Statements -and Management's Discussion and Analysis -for State and Local Governments*, the Comptroller of Public Accounts does not require the accompanying annual financial report to comply with all the requirements in this statement. The financial report is considered for audit by the state auditor as part of the audit of the state's *Comprehensive Annual Financial Report (CAFR)*; therefore, an opinion has not been expressed on the financial statements and related information contained in this report.

Blended Component Units

The Texas Department of Licensing and Regulation does not have any blended component units.

Discretely Presented Component Units

The Texas Department of Licensing and Regulation does not have any discretely presented component units.

Fund Structure

The accompanying financial statements are presented on the basis of funds, each of which is considered a separate accounting entity.

Governmental Fund Types and Government-wide Adjustment Fund Types

General Revenue Funds The general revenue fund (fund 0001) is used to account for all financial resources of the state except those required to be accounted for in another fund.

Capital Assets Adjustment Fund Type The capital asset adjustment fund (fund 9998) is used to convert governmental fund types' capital assets from modified accrual to full accrual.

Long-Term Liabilities Adjustment Fund Type The long-term liabilities adjustment fund (fund 9997) is used to convert governmental fund types' debt from modified accrual to full accrual.

UNAUDITED

Fiduciary Fund Types

Fiduciary funds account for assets held by the state in a trustee capacity or as an agent for individuals, private organizations, other governmental units, and/or other funds. When assets are held under the terms of a formal trust agreement, either a pension trust fund or a private purpose trust fund is used.

Agency Funds

Agency funds are used to account for assets the government holds on behalf of others in a purely custodial capacity. Agency funds involve only the receipt, temporary investment, and remittance of fiduciary resources to individuals, private organizations, or other governments.

The child support employee deductions offset account (fund 0807) temporarily holds money withheld from the salaries of state employees for child support deductions subsequently distributed through the statewide clearing house.

Departmental suspense (fund 0900) provides a temporary depository for money held in suspense pending fund disposition. Items held in the fund are cleared to the various special funds or the general revenue fund, or are returned to the payer.

Private-Purpose Trust Funds

Private-Purpose Trust Funds are used to account for all other trust arrangements whose principal and interest benefit individuals, private organizations, or other governments.

The service contract providers securities trust account (fund 0846) holds financial security deposits required to be paid by service contract providers.

The auctioneer education and recovery trust fund (fund 0898) holds funds collected as additional fees from licensed auctioneers for payment of claims against licensed auctioneers and for education of auctioneers and promotion of the profession.

Basis of Accounting

The basis of accounting determines when revenues and expenditures or expenses are recognized in the accounts reported in the financial statements. The accounting and financial reporting treatment applied to a fund is determined by its measurement focus.

Governmental fund types that build the fund financial statements are accounted for using the modified accrual method basis of accounting. Under the modified accrual, revenues are recognized in the period in which they become both measurable and available to finance operations of the fiscal year or liquidate liabilities existing at fiscal year-end.

The state of Texas considers receivables collected within 60 days after year-end to be available and recognizes them as revenues of the current year for fund financial statements prepared on the modified accrual basis. Expenditures and other uses of financial resources are recognized when the related liability is incurred.

Governmental adjustment fund types that will build the government-wide financial statements are accounted for using the full accrual method of accounting. The following activities are recognized in these fund types: capital assets, accumulated depreciation, un-paid employee compensable leave, the un-matured debt service (principal and interest) on general long-term liabilities, long-term capital leases, long-term claims and judgments, and full accrual revenues and expenses.

UNAUDITED

Private-purpose trust funds are accounted for using the full accrual basis of accounting. Under the full accrual basis of accounting, revenues are recognized when earned and expenses are recognized at the time liabilities are incurred.

Budget and Budgetary Accounting

The budget is prepared biennially and represents appropriations authorized by the Legislature and approved by the governor (the General Appropriations Act).

Unencumbered appropriations are generally subject to lapse 60 days after the end of the fiscal year for which they were appropriated.

Assets, Liabilities, and Fund Balances/Net Assets

Assets

Cash and Cash Equivalents

Short-term highly liquid investments with an original maturity of three months or less are considered cash equivalents.

Inventories

Inventories include both merchandise inventories on hand for sale and consumable inventories. Inventories are valued at cost, generally utilizing the first-in, first-out method. The consumption method of accounting is used to account for inventories that appear in the governmental fund types. The cost of these items is expensed when the items are consumed.

Capital Assets

Assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year are capitalized. These assets are capitalized at cost or, if not purchased, at appraised fair value as of the date of acquisition. Purchases of assets by governmental funds are reported as expenditures. Depreciation is reported on all "exhaustible" assets. Assets are depreciated over the estimated useful life of the asset using the straight-line method.

Liabilities

Accounts Payable

Accounts payable represents the liability for the value of assets or services received at the balance sheet date for which payment is pending.

Employees' Compensable Leave Balances

Employees' compensable leave balances represent the liability that becomes "due" upon the occurrence of relevant events such as resignations, retirements, and uses of leave balances by covered employees. Liabilities are reported separately as either current or noncurrent in the statement of net position. These obligations are normally paid from the same funding source from which each employee's salary or wage compensation was paid.

UNAUDITED

Fund Balance/Net Position

“Fund balance” is the difference between assets plus deferred outflows of resources and liabilities plus deferred inflows of resources on the governmental fund statements. “Net position” is the difference between assets plus deferred outflows of resources and liabilities plus deferred inflows of resources on the government-wide, proprietary and fiduciary fund statements.

When both restricted and unrestricted resources are available for use, it is the Texas Department of Licensing and Regulation’s policy to use unrestricted resources first, then restricted when they are needed. When only restricted resources are available for use, it is the agency’s policy to use committed resources first, then assigned resources and unassigned resources last.

Fund Balance Components

Fund balances for governmental funds are classified as non-spendable, restricted, committed, assigned or unassigned in the fund financial statements.

- **Non-spendable fund balance** includes amounts not available to be spent because they are either (1) not in spendable form or (2) legally or contractually required to be maintained intact.
- **Committed fund balance** can be used only for specific purposes pursuant to constraints imposed through legislation passed into law by a formal action of the Texas Legislature, the state’s highest level of decision making authority.
- **Assigned fund balance** includes amounts constrained by the state’s intent to be used for specific purposes, but are neither restricted nor committed. Intent is expressed by (1) the Texas Legislature or (2) a body (for example, a budget or finance committee) or official to which the governing body has delegated the authority to assign amounts to be used for specific purposes.
- **Unassigned fund balance** is the residual classification for the general fund. This classification represents fund balance that was not assigned to other funds and was not restricted, committed or assigned to specific purposes within the general fund.

Net Invested in Capital Assets

Net investment in capital assets, consists of capital assets, net of accumulated depreciation and reduced by outstanding balances for bond, notes and other debt that are attributed to the acquisition, construction, or improvement of those assets.

Unrestricted Net Positions

Unrestricted net position consists of net resources that do not meet the definition of the preceding category. Unrestricted net position often has constraints on resources that are imposed by management but can be removed or modified.

INTERFUND ACTIVITIES AND TRANSACTIONS

The agency has the following types of transactions between funds:

- 1) Transfers: Legally required transfers that are reported when incurred as "transfers in" by the recipient fund and

UNAUDITED

as "transfers out" by the disbursing fund.

2) Reimbursements: Reimbursements are repayments from funds responsible for expenditures or expenses to funds that made the actual payment. Reimbursements of expenditures made by one fund for another are recorded as expenditures in the reimbursing fund and as a reduction of expenditures in the reimbursed fund. Reimbursements are not displayed in the financial statements.

The composition of the agency's interfund activities and balances are presented in Note 12.

Notes and Loans Payable: The agency did not have any notes or loans payable as of August 31, 2015.

Employees' Compensable Leave If a state employee has had continuous employment with the state for at least six months, the state employee is entitled to be paid for all unused vacation time accrued in the event of the employee's resignation, dismissal, or separation from state employment.

Expenditures for accumulated annual leave balances are recognized in the period paid or taken in governmental fund types. For these fund types, the liability for unpaid benefits is recorded in the statement of net assets. No liability is recorded for non-vesting employees accumulating rights to receive sick pay benefits. This obligation is usually paid from the same funding source(s) from which the employee's salary or wage compensation was paid.

NOTE 14: ADJUSTMENTS TO FUND BALANCES AND NET ASSETS

During fiscal 2015, adjustments were made that required the restatement of fund balance. This restatement is presented below:

Changes in Fund Balance	General Funds (Fund 0001)	General Funds Total
Fund Balance - September 1, 2014	1,538,761.63	1,538,761.63

The restatement of \$363.45 to the Beginning General Fund (Fund 0001) Balance eliminates differences in Appropriation 97768 – Convenience Fees included in the agency's General Revenue Reconciliation from fiscal year 2013 - \$197.03, from fiscal year 2014 - \$24.07, and from fiscal year 2015 - \$142.35.

NOTE 17: RISK MANAGEMENT

Although the Texas Department of Licensing and Regulation (TDLR) is rarely exposed to civil claim resulting from the performance of its duties, there were two major settlements and judgements paid in fiscal year 2015. One settlement of \$65,000 was paid for a suit brought against the former Texas Cosmetology Commission (TCC) in 2005. The TCC was abolished in 2005; and its functions, assets, and liabilities were transferred to TDLR. With approval of the Office of the Attorney General, the agency agreed to settle the claim in lieu of further prolonged litigation.

The second judgement in Brantley vs TDLR costing \$134,445 was brought to federal court by the Institute for Justice. In this case the District Judge ruled that Texas law requirements for hair braiding schools do not advance public health or public safety and are therefore unconstitutional. TDLR was forced to pay the claim even though the agency was acting in its official capacity to enforce state statute. Subsequent to the ruling, the agency requested and received a new rider in the General Appropriations Act that would shield the agency from future judgements or settlements that arise from claims challenging the validity or constitutionality of a state law.

The agency assumes substantially all other risks associated with tort and liability claims due to the performance of its duties. Currently there is no purchase of commercial insurance nor is the agency involved in any risk pools with other government entities.

Total claims and judgement paid in fiscal 2015 were \$208,280.59. There were no claims paid in fiscal 2014.
